Hood County COVID-19 Quick Update, May 20th, 2020

Three new COVID-19 cases have been confirmed in Hood County, for a total of 25 cases. No new COVID-19 related deaths have been reported.

Drive through testing results revealed one additional positive case, and two others tested positive in the community.

Over 1,000 COVID-19 PCR swab tests have now been completed on Hood County Residents, and three percent of those tests have been positive since testing began in mid-March.

Only three of of 182 tests conducted by drive through testing were positive.

I will continue to provide updates on Mondays and Fridays unless we have more positive cases or COVID-related deaths confirmed.
